Rudolph Construction, Inc.
550 Central Ave.
Bishop, CA 93514

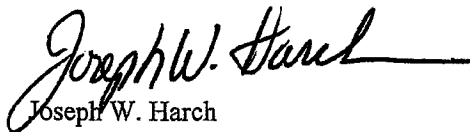

I am writing this letter to document the very positive experience my wife Judith and I had in working with Rudolph Construction, Inc. in building a single family residence in Mammoth Lakes, California.

Having grown up in Southern California and skied Mammoth for many seasons, including the winter of 1969, I have always wanted to build a home there. In the summer of 2003 I was able to purchase a lot with a foundation that had been laid and building plans from the previous owner. The architectural plans which were completed by Steven Kabala required a complete steel frame and a high degree of construction expertise. After interviewing a number of general contractors with our architect we chose Rudolph Construction, Inc.

Rudolph was able to complete the exterior and interior construction to the wall board on the initial budget in a very timely manner. The second phase which was the interior finishes required working daily with my wife Judith, the architect Steve Kabala and the interior design proposals my wife selected to achieve a contemporary look. The Rudolph staff completed the interior finishes with the highest degree of care to detail. The Rudolph supervisor Rod Opp brought decades of experience to the job and a broad array of talents. The completed home has met all of our expectations and the construction experience was smooth and efficient.

We would engage Rudolph Construction, Inc. again if we have another construction project.

Sincerely,

Joseph W. Harch
